

OXISTAR – HC 100

(SIZE PRESS STARCH)

INTRODUCTION

"OXISTAR-HC 100" is a Chemically Modified Starch, developed for use on size press.

"OXISTAR-HC 100" has a greater degree of fluidity and film produced from it is continuous and strongly adherent.

ADVANTAGES

OXISTAR-HC 100 provides the paper maker:

- Improved printability and better print ink holding
- Better surface strength, wax pickresistance & smoothness
- Improves BF & other internal Strengths
- More consistent results due to control on viscosity
- Higher pick-up at the size press
- No phase separation

PROPERTIES

- Good paste stability, clarity and reduced tendency to retrograde.
- Lower pasting temperature.
- Pastes are more stable to salts and hard water
- Tough, clear and flexible films.

TECHNICAL SPECIFICATION

Appearance	Fine, dry, odourless, white powder
Moisture	Not more than 12%
Ash (Dry solid basis)	Not more than 5 %
Brightness (Laserphot)	Not less than 90%
pH of 10 % aqueous solution	5.0 – 7.5
Particle Size (% passing through 85#)	Not less than 98%
Brookfield Viscosity (10%W/W; Temp 60°C, 60 RPM, DVE model, cps)	Not more than 50

PREPARATION

1. Prepare a suspension in freshwater by continuous stirring.
2. The suspension should be free of lumps.
3. Gradually heat (direct steaming is o.k.) to 95 °C.
4. Keep under mild stirring for 30 minutes.
5. Continuous cooking by jet cooker can also be done

HANDLING, STORAGE & SAMPLING

1. Do not use hook, drag the bags on truck or any other platform.
2. Bags should be stored on clean platform, kept covered with clean piece of tarpaulin. Also ensure that the storage area is dry, covered, away from humid conditions, hazardous, explosive and aromatic chemicals.
3. Ensure unloading staff have clean hands and head covered with clean Cloth/Cap.

SHELF LIFE

1. 1 Year, if stored under recommended conditions

PACKING

1. OXISTAR- HC 100 is available in 50 Kg with moisture proof lined bags.
2. Special packing can be arranged on request.

OTHER PRODUCTS

- | | |
|------------------|-------------------------------|
| 1. Size press: | OXISTAR - HC, OXISTAR –HC 200 |
| 2. Spray starch: | DS- HIBUST, DS- HIPLY |
| 3. Wet end: | CATSTAR 200, CATSTAR 300 |
| 4. Spray system | Complete spray system |
